

Grape Jelly Rhythm Game

Print this sheet on cardstock and laminate if desired. Cut along dotted lines to make cards which can be used for rhythm games. Give the quarter notes a one syllable name, and the pair of eighth notes a two syllable name, for example "grape" and "jelly" or "ta" and "ti-ti." Line groups of cards up and have students practice clapping and saying the correct rhythm. Allow the students to also make their own combinations. For variety, substitute rhythm instruments or foot tapping for hand clapping. Encourage students to keep a steady beat.
